## The Bank Test.

There promise to be serious divisions in the sham democratic camp on the currency question. The Memphis Appeal thinks that the sham democratic State Convention had better let it alone. It is evidently not content with the recommendations of the Johnson-Nichol-

"The banks and the currency will be very rominent, if not the leading, subject of political-discussion in the next State canvass. \* · Let the advocates of both systems say and do as they please; but of one thing we are clearly satisfied and that is, that the prople of Tennessee are sick and tired of carrying paper in their pocket, which is only the representative of a certain amount of indebtedness. They are determined, and will have, if they have a paper currency at all, to have that paper, the representative of labor in other words, the representative of specie. But. says the bank man, no bank can furnish such a currency and exist. Then let them not exist. But on the contrary we are satisfied that they can do it and exist. We believe the Bank of ler either for banks or for an entire gold and can be compelled to withdraw all their circulation under a certain amount so that the amount, in other words, the bank bill itself, from the very force of the smaller circulation will become the representative, not of indebtedness, but of labor or rather specie. We believe, to this end, that it will be necessary to strike down all irresponsible and shinplaster banking institutions. We would leave alone such banks as are subject entirely to the control of the legislature. We would throw around such banks the most stringent provisions. . . The people care little for party platforms or party edicts where they conflict with their actual wants and accessities, and only obey them where they are alone consonant with their feelings and sentiments. We see no necessity why the currency question should be made a party one, and deplore any attempt at making it one, because we are satisfied that by making it so the people in

Reminiscences of the Richmond Bar, by Ex-President Tyler.

Ex-President Tyler delivered a lecture on Thursday evening last, before the Mechanic's Institute at Richmond. H's subject was "Richmond and its Memories." He gave the following pleasant reminiscences of the bar of Richmond, at the time when he first appeared as counsel in a Richmond court, at the age of twenty-one years:

"At the time to which my narrative chiefly elates, the Richmond bar was equal to any other in the Union. It consisted without a netaphor, of a constellation of talent-Mr. Wickman, Mr. Wirt, Mr. Call, Mr. Worden. along with others scarcely inferior in abilities. Chief Justice Marshall had years before put on the robes of the Chief Justice. How he

You see, you feel, you touch the power you are parting with, and the hazard you run in conceding it, before surrounding yourself with guarantees and securities,often overwhelming. At an after day he changed his residence to Baltimore, where he measured swords with William Pinckney of bee, son-in law, of Simpson. His mouth was enormously large, and yet his tongue was too large for his mouth, which rendered his articulation muddy and indistinct. Any one could sketch his likeness. It was on all the walls of the capitol. I remember one sketch in particular, which was exceedingly striking the Whigs and Americans sympathize with and had written over it what was supposed to be his epitaph. The last lines I only retain in my memory:

He often facetiously declared that his parents had twelve children, and that he was the handsomest of the set; and yet if nature in a freak so illy made up his person, she fully compensated for it in the formation of his mind. That was a gem of much value and caused one to forget the defects of the setting. Unquestionably the best conveyancer in the State, possessing much wit, pro foundly versed in the law, and adding to all these pleasantry and good humor, every one liked him and he was accordingly surrounded with clients. These brilliant lights of the bar have all passed away. They have been succeded by others, and these others have had their successors; and yet it may well be questioned whether any of the more modern knights of the forum could poise a lance with more skill. or strike an adversary a heavier blow."

## A Republican Reply to Mr. Seward's Speech.

There are "Republicans" in the North who are speaking out. The New Hampshire "STATESMAN" is one, and just now says:-" Now let us inquire, in the name of common sense, of what avail is it to prove by statistics that we pay three-fourths of all the Tennessee can do it. We are no great stick- Government, expenses while Southern consu-

We believe that the banks is it to prove to the satisfaction of every politician that we supply the South with all that they wear, from a top knot to a shoe leather; with all that they use, from a steam engine to a friction match, when this very process feeds our manufacturers? The South is as necessary to the North as the North is to the South,-Massachusetts annually makes six millions of dollars' worth of shoes. The South is ber best customer. When the shoe business declines, gaunt hunger will stalk through the streets of our flourishing villages.

"New England extensively engaged in the manufacture of cotton. We buy the raw material of the South, and pay in goods .-When our spindles cease to whirl, the operatives are threatened with starvation. It is the spirit of a hyena that bites the hand that feeds it. It is high time to cultivate fraternal feeling between the different sections of our country. Neither commerce, manufacturers nor agriculture, can flourish, while the two hostile portions of our country endeaver to cripple and injure each other. Supposing we succeed in convincing the South of their dependence on us for all they eat, and wear, and use; and thus stimulate them to establish trade into other channels, are we gainers by

the process? "Suppose we prove that they are indebted to us for all their literature and all their slavery are incompatible with each other, and teachers, and thus rouse their hostility to our should not be permitted longer to exist in books and teachers, are we benefitted in any wise? "Wby, then, hoist the banner of "No more slave States, when the very corner-stone of our political fabric rests upon the principle that a majority of the people of every State, new or old, shall decide that question for itself?

The Beautiful Decoy.

[From the Unpublished Chronicle of a Traveler.] It is well known to all in any degree familiar with the history of Mexico that a regular system of highway robbery exists in every section of that miserable governed country, and that through a want of interference of the authorities this has grown up into such a regular and formidable shape that every traveler must be prepared to put his life at bazard at every stage, or be provided with a suitable contribution for los caballeros del camino (the knights of the road.) who, in the event of finding you prepared and willing, will make their levy with a politeness only equaled by the smiling landlord when he receives your overcharged fare for your last night's entertainment. Why such systematic boldness of robbery is allowed-if not with the connivance, at least with rarely any interference of the Government or State authorities-is one of these mystical matters which among many others, so puzzles and perplexes the intelligent foreigners, but that

such is the disagreeable truth every traveler through that wretched country can bear ample testimony. Some years ago, having business which first called me to the capital of Mexico and thence through the interior of the country to the northward. I met with several thrilling adventures, which I have recorded for the benefit of whomseever may take an interest therein, omitting only the dates, they being non-essential to the interest of the narrations

The first of the series occurred on the route between Vera Cruz and the city of Mexico. In the regular diligencia running between the places just mentioned I had taken passage. and had passed through the beautiful city of Jalapa, and entered the gloomy town of Perote, without meeting with any unusual incident, though being continually warned to be on my guard against the dangers of the road. At Perote, where we halted for a relay and refreshments, all my fellow passengers took leave of me, very solemnly assuring me that, if assailed by the ladrones, or robbers, it would be much better for me to take matters quietly, and suffer myself to be genteelly plundered than to run the risk of having my throat cut for resistance, as I had somewhat boldly proclaimed it was my intention of do-I thanked them for their advice, and replied that I would take the matter into serious consideration.

At Perote, I repeat, all who had been my companions from Vera Cruz took leave of me, this being the end of their journey in that direction; but there was one new passenger here to go forward, whom to my agrecable surprise, I found to be a beautiful young lady, some twenty years of age.

Senorita Paula, as I subsequently ascertained her name to be, was, indeed, one of those rare beauties seldom met with except in works of fiction-tall, graceful, with a profusion of long black hair-soft, clear, melting dark eyes-f atures as perfect as ever came from the hands of the sculptor, and with an animation the most fascinating, varying in expression with every changing mood of the intellectual possessor. A glance at her bewitching dark eyes showed me that she was one who was naturally of social disposition: and as we rattled away from the gloomy town, I took the liberty of opening a conver-"They tell me." said I, "that the route be

tween here and Mexico is a very dangerous one to travel." "There is little to fear," she replied, with a sweet smile and in a melodious tone, "except from the professional robbers, and they seldom harm any one who makes no resist-

"It seems strange to me," I rejoined, "that you Mexicans should take such things as a matter of course, and deem resistance a very impolite way of treating the knights of the rood, instead of boldld asserting your rights, and atating the evil by a manly spirit of resistance. For myself, I must consider it the most cowardly of proceedings for any respectable party to set out prepared to quietly gratify the cupidity of the ladrones, and unprepared to treat them to their just deserts.'

"Every traveler, Senor," she replied should, before setting out, count the cost of his journey; and as, of course, it is natural he should value his life highly, it seems to me Vera Cruz to Mexico, if he will first reckon that so much is the fare by the diligencia, and tingency you speak of, he will then have the exact cost between the two points; and if he one party more than another." "That," I replied. "may be. I believe is, the

"But every one," replied the fair speaker, should conform to the customs of the coun-

highway robbery? and have you no fear in thus journeying by yourself?" "Well, Senor, what can I do? I am, as you perceive, an unprotected lady; who, for

certain reasons, am required to make the ionrney between Perote and the capital some twice or thrice a year, and you certainly could not expect me to go prepared to resist an armed band! As to fear, I will not deny I have my share of that; but, so far. I have never met with any rough treatment, and of course I trust to the saints that my fortune will ever be as propitious." "And have you really been robbed on your urney back and forth?" I inquired.

"I think I have paid my share to the la drones for my tran-it through their country ! she laughed. "And you expect to continue a repetition of the same for the rest of your life ?" "Who knows?" she replied. "At least

hope to be always prepared." "And your fellow travelers," said I: "have you never seen any disposed to resist these unlawful acts?" and wounding two,"

"And did the robbers fire back ?" "Yes, but fled immediately, and fortunately pipred none of our party.

"As I should have expected," returned I. "You were not robbed on that occasion. I . We were not, Senor; but the two foreign-

were killed, separate and at different times, and fell between us. near the same spot. You see these crosses by the side of the road, Senor ?" "I have observed them frequently, but here

they seem to be much more numerous." I replied, looking forth from the vehicle, "Each stands on the spot where some as we go along, I will call your attention to those which mark the places where the foreigners met theirs."

"Do you know," said I, that I am resolved to emulate their example, let the consequences be what they may?' "Holy saints defend us!" she exclaimed; you are not in earnest, Senor?" Seriously so, I assure you.'

"You would only bring certain death upon us both. "Say rather, I should lighten the expenses of the journey-for your knights of the road understand retreat as well as advance-and you yourself have acknowledged that firm resistance put them to flight for once."

Senor, and you are only one." "Ah! Santa Maria! you will think better their weapons to bear upon me.

As we continued our journey, the conversation gradually changing from one thing to another, Senorita Paula suddenly brought it back to the point where it first opened. "We are coming upon a dangerous part of the road," she said; "are you still resolved never forgotten; and during the remainder to detend yourself it assailed?" "With your permission, Senorita?"

"I don't think it advisable," she replied, "but still, if such is your intention, I think it no more than right that you should give me a chance to take a part in my defence, since my risk of danger will be a great as yours." "And have you really the nerve, after all, to denfend yourself?" I inquired. "If I had the means, Senor." "I have two pistols," said I; "if you will

A minute after, and while I was gently chiding her, we heard a loud, quick tramp of horses, and several sharp, rapid exclamations. The next moment our conveyance was stopped suddenly, and we saw ourselves surrounded by some eight or ten mounted men, one of whom, in a lond voice, exclaimed: "Yeild you prisoners, or die!"

"You will oblige us by stepping forth and giving yourself into the care of these good gentlemen, who will see that you are treated as a brave man should be, but who will trouble you, meantime, for any little change and valuables you might have to spare!" There seemed to be no help for it-the eautiful Senorita Paula Valerde was a spy

and accomplice of the ladrones. She had entered the diligencia at Perote for no other purpose than to ascertain the exact condition of things inside, and be able to signalize her associates as she passed along, so that they might know exactly in what manner to conduct themselves and make their work sure without risk. By a simple stratagem she had obtained my arms, just at the point where she knew the attack would be made: and her discharge of the pistol, as if by accident, was the sign to show them that all was "I acdnowledge myself conquered by

FREDERICK THE GREAT,

THOMAS CARLYLE.

Author of "History of the French Revolution," "Crow well's Letters and Speeches," "Sartor Resastus," do. Vols. I and II, with Portraits and Maps, 12 mo. Muslin.

To be completed in 4 Vols. [From the Saturday Review, (London.) Oct. 23.] With a patient industry only less remarkable than his creative power, he has produced a work which, in addition to higher qualities, is as amusing as a Waverly novel, and as accurate as a German mono-

[From the New York Times, Nov. 5th, 1858.] His "Life of Frederick the Great" has long been eagerly anticipated, and now that it has been published it is seized upon with as much avidity as though it. The parties owning the above trust being non-reso. were a new novel by Belwer or Dickens. . . . . There is no abatement of the old Carlylean strength, or humor, or quaintness, with which the reading world is already so familiar, which so many have tried in vain to imitate, and which still remains unique and impossible to all but their inventor and master.

[From the N. Y. Evening Post, Nov. 6th, 1858.] If the two volumes which are to succeed shall equathe two which we have read, Carlyle's Life of Fred erick the Great must be regarded as his greatest work. The author has explored a field which has never been stelligently and thoroughly traversed by a competent hist rian, and the result is a historical resurrection of scenes and persons in the eighteenth century which few readers were prepared to anticipate.

[From the N. Y. Tribune, Oct. 30th, 1858.] No labor can be compared to the literary toil, of which the marks are conspicuous on every page of these volumes. Such handling of antique musty documents, such thrashing of husks for a few grains of corn, such eye destroying, soul depressing pertinacity of research as their composition has evidently de manded of the author, almost place the miraculous diligence of Gibbon himself at a discount. Seldom indeed is the inspiration of a man of genius so hap pily combined with the degged faithfulness of a

[From the National Review, (London.) Oct. 1858.1 Of the richness of Mr. Cartyle's book in firmlydrawn and vivid pictures of men and things-of its can be gathered except from its own pages. . . . There is one characteristic of Mr. Carlyle's which rises him above the level of all contemporary histo- been effered to the public. The location of finitely little" that makes so large a part of history, is this sense that sives to his writings their turn of quaint pathos, their tone of stern or mournful irony, their startling and grotesque contrasts. [From the Brooklyn Times, Nov. 24 1858.]

The present biography is the product of years of the most profound research, a research conducted with the earnestness of an enthusiast who is in love psychic in back, a lot of Mules and Hors a.
